

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1 **Claim 1** (original) A radio terminal device comprising:
2 a printed board having a front surface and a rear surface;
3 a resin housing covering the rear surface of the printed
4 board;
5 a metal housing covering the front surface of the printed
6 board,
7 wherein a part of the printed board is accommodated in the
8 resin housing; and
9 an remaining part of the printed board is accommodated in
10 the metal housing.

1 **Claim 2** (original) The radio terminal device according to
2 claim 1, wherein the resin housing and the metal housing are
3 joined with each other by a curved line from a viewpoint of the
4 side of the radio terminal device.

1 **Claim 3** (original) The radio terminal device according to
2 claim 1, wherein the printed board and the metal housing are
3 connected with each other electrically

1 **Claim 4** (original) The radio terminal device according to
2 claim 1, wherein the antenna is disposed near an end portion in
3 the remaining part of the printed board.

1 **Claim 5** (new) A radio terminal device:
2 a printed board;
3 an antenna disposed on a rear surface side of said printed
4 board; and
5 a housing for accommodating said printed board and said
6 antenna, said housing including a metal housing so disposed as
7 to cover a front surface of the printed board and a resin housing
8 so disposed as to cover a rear surface of the print board,
9 wherein in a vicinity of said antenna, at least a part of
10 the rear surface side of said printed board is accommodated in
11 the resin housing.

1 **Claim 6** (new) The radio terminal device according to claim
2 5, wherein the resin housing and the metal housing are joined
3 with each other by a curved line from a viewpoint of the side of
4 the radio terminal device.

1 **Claim 7** (new) The radio terminal device according to claim
2 5, wherein the printed board and the metal housing are connected
3 with each other electrically.

1 **Claim 8** (new) The radio terminal device according to claim
2 5, wherein the antenna is disposed near an end portion in the
3 remaining part of the printed board.
